Waterways Travelled - Gloucester & Sharpness Canal

Type of Water - mostly rural canal

Distance - 15 Miles

Licence Information - Canoe England Membership covers a licence for this waterway. You need to take your membership card with you as it is your licence too. Licence and navigation information (stoppages and events) can also be obtained from Basingstoke Canal Authority, Canal Centre, Mychett Place Road, Mychett, Surrey, GU1 6DD. - Tel. 01252 370073

Local Facilities – There are no public toilets at Purton, however at Slimbridge there is a cafe and toilets next to the canal.

Vehicle Shuttle Required – A vehicle shuttle is not required as this is an out and back trail

Portages and Locks – There are no locks, however this trail does have some low swing bridges and we would advise that you ensure you have considered, the craft you are in, the river levels and the potential need to portage. If you do go under these bridges please look out for any nuts and bolts protruding below the bridge.

We have taken great care to ensure the currency, accuracy and reliability of this information. We cannot accept responsibility for errors or omissions but where such are brought to our attention, the information will be amended accordingly. Users should be aware that environmental conditions outside of our control can change the nature of the Trail within a short space of time. It is recommended that weather and water conditions are checked beforehand, and tide timetables where applicable.

Directions

From the South

More about the canal

The [Gloucester & Sharpness Canal](#) was built and opened in 1827. This trail is the last of four possible trails. Its ideal for a first canoe or kayak trip- little traffic, very quiet, wide enough not to hit anybody.

[Purton](#) is usually very quiet and deserted, and has a landing stage next to a car park, £1 for four hours. Otherwise, access can be from banks next to the swing bridges, unless there is traffic coming through the bridges.

From Purton northwards, there are fields on both sides, and in the distance, the Forest of Dean can be glimpsed on the left (west) side, and the Cotswolds on the east side. It is two and a half miles up to Slimbridge, (approximately one hour) which has a café and toilets next to the canal. The Wildfowl and Wetlands Trust Reserve is half a mile up the road towards the Severn, and this area is the busiest on your route, with much traffic going up the road to see the birds, and many boats moored.

Two miles on from Slim Bridge is [Splatt Bridge](#), with a small car park. This part of the trail takes you through some very flat horizons.

Another mile, and [Saul Junction](#) has a large car park and cafe, and launching. Again, many boats tethered to the bank. The village just inland from here is Frampton, not large, but signposted from the A38.

From just after Saul village, the (former) Stroudwater Navigation leaves to the east, long closed, and able to be paddled for about 500 yds. It is paralleled by the River Frome, also small, heading north-west to join the Severn.

A mile afterwards, Parkend bridge is your egress or turning point.

If you want to go nearer to Gloucester, the docks are closed to canoes and kayaks, and so a visit up to the edge of the city has to be made from here on foot (parking next to the canal by the bridge). This is the quietest part of the canal, as there is no towpath, and the waterway takes you slowly through wooded banks. Lovely wildlife here, including [kingfishers](#).

The distance for this trail could be halved by dropping off at Purton and then pick up at Parkend Bridge, If you have enjoyed this trail why not try out one of the many trails on this beautiful Canal.

Useful Information

[Purton](#) has the largest ships' graveyard in maritime Britain and is an important locality for studies of [vertebrate palaeontology](#). It is also a SSSI (Site of Special Scientific Interest) [Sharpness and Gloucester Docks](#)

We have taken great care to ensure the currency, accuracy and reliability of this information. We cannot accept responsibility for errors or omissions but where such are brought to our attention, the information will be amended accordingly. Users should be aware that environmental conditions outside of our control can change the nature of the Trail within a short space of time. Other nearby Visitor Attractions

[Gloucester Docks](#)
[Cattle Country Park](#)
[Berkeley Castle](#)
[The Edward Jenner Museum](#)
[Local pubs](#)

There is a towpath for most of the canal. Easy road access from both A38 and M5. Good provision of toilets and places to stop.

Recommended Next Trail

If you have enjoyed this trail why not try out another one of the four trails on this beautiful canal.

Safety Information

Spending an afternoon canoeing can be a fun way to experience nature, get a great workout and spend time with family and friends.. However, it can also be a dangerous journey, if safety guidelines are overlooked. Always follow these basic rules and comply with navigation rules- keep to the right of on-coming boats. Please be careful at points along the trail where there are sharp bends on the waterway and keep a look out at these points for oncoming traffic.

Wear appropriate clothing

Always wear shoes. Rocks, rough terrain and river beds present serious hazards to boaters without the proper attire. Nearly 90per cent of all boating injuries are attributed to lack of proper footwear. Other canoe safe clothing includes hats, additional dry clothing towels, and layered items which can easily be removed.

Be sure to

- Know the weather forecast before you set out canoeing.
- Familiarise yourself with the local area, it's sensitive places and protected areas.
- Leave the environment as you found it. Please read [You, Your Canoe and the environment](#)
- Take your litter home with you.
- Follow the navigation rules for the waterway you are on.
- Keep noise to a minimum.
- Do not damage bank side vegetation when launching or landing. (No Seal Launching)
- Where possible keep to any designated paths or launching points.
- Canoe a safe distance away from wildlife.
- Check your equipment.
- Observe the navigation rules for this waterway.

We cannot accept responsibility for errors or omissions but where such are brought to our attention, the information will be amended accordingly. Users should be aware that environmental conditions outside of our control can change the nature of the Trail within a short space of time. It is recommended that weather and water conditions are checked beforehand, and tide timetables where applicable.

- Check to see if there are any events on the waterways when you wish to travel.
Use the checklist below to make sure you have everything you need.

Checklist:

1. Boat
2. Paddle
3. Buoyancy Aid
4. Bailer/sponge
5. Small First Aid Kit
6. Penknife
7. Mobile telephone (in a waterproof bag....Please note that in some areas due to the location mobile telephone reception might be nonexistent)
8. Fresh drinking water
9. Sun cream, hat and sunglasses
10. Light waterproof jacket
11. Footwear
12. Licence

ALWAYS be certain to let others know where you're going and when you're expected to return.

Specific Environmental Information:

Please ensure you don't remove or damage any plants or animals from the waterway as they may be protected or harmful if transferred to other catchments.

Canoeists and kayakers take very seriously environmental concerns and already follow existing voluntary environmental codes of conduct, including Canoe England's own guidance notes outlined in the "You your canoe and the environment" publication.

By following the simple steps below you can ensure your presence is not detrimental to the freshwater environment, minimize and avoid accidentally disturbing wildlife and their habitats.

- Find out about the area before you go, noting its sensitive places, species and breeding seasons.
- Leave no trace of your visit and take your litter home with you.
- When clearing litter left by others, handle it with care.
- Leave the environment as you find it
- Keep noise to a minimum.
- Do not "seal" launch or drag boats to avoid wearing away natural banks. Float your canoe for launching, lift out when landing and carry it to and from the water.
- Do not damage bank side vegetation when launching or landing.
- Where possible keep to any designated paths or launching points.
- On rivers, avoid paddling over gravel banks in low water conditions – they may contain fish spawn.
- Constantly assess wildlife. If you see signs of disturbance move away quietly.
